

## **BRUCE AND PAULINE**

### *Silk Road region*

Pauline and Bruce have left their employment in Australia to serve in a cross-cultural situation for a year or more. Bruce has been appointed interim leader of the Silk Road team.

Bruce has diverse experience which equips him well for his leadership position. Initially working as a secondary teacher, he moved into leadership of community groups and then leadership and administrative roles in education.

Pauline is highly qualified in microbiology and biochemistry as well as being a secondary teacher. Much of her employment life has been in research.

Both are caring, compassionate people who are a great benefit to the team and to the people whom they serve.

Bruce and Pauline will be helping and supporting the team as they expand work in a rural town and explore other opportunities through which to serve the community.
