

D & E

Serving in South East Asia

D & E have a long history with Global Interaction. From 1983 to 1998 they served cross-culturally in Papua with their three children, Heath, Linsey and Garrett. D was involved with various community development projects. They also assisted the local churches with church visitation, preaching, teaching and the production and distribution of resources.

With their children now grown up, two with families of their own, D & E know that God is calling them back to cross-cultural service. They look forward to joining the team in South East Asia and using the skills and experience they gained in both Papua and Australia to teach work skills and English language training. They desire to build loving relationships with the local people, and to be involved in empowering them to develop their own distinctive ways of following Jesus.
