

## GARRY AND NICOLA

*To serve during 2008*

“God has been speaking to us about mission for a number of years now, through channels as varied as secular university courses, short term mission trips, sermons and personal Bible study. Surprisingly perhaps, the breakthrough that cemented the sense of call to mission was a marriage enrichment course. Since then we have actively and intentionally pursued a future in mission for our family. That journey has involved taking one step at a time, never sure what might be the next step God has planned for us, but being obedient to each part of his plan as it is gradually revealed to us. Global Interaction has confirmed our calling by accepting us as candidates, and exploring with us where God plans to use us.”

Nicola has skills and training in teaching, administration and working with people with disabilities; Garry’s skills are in management, human geography, development and research.

They have four beautiful children – Addison (3.5.98), Elisabeth (17.5.00), Keegan (11.1.03), Imogen (4.6.06).

Nicola and Garry are preparing to serve in Thailand, where they will provide administrative and other support to the team.
